Single Item Inspection

For Only  
**RM15**

## HEALTHY VEHICLE = SAFE VEHICLE

### BECAUSE YOU CAN'T PUT A VALUE ON THE SAFETY OF YOUR LOVED ONES

Ensuring a healthy vehicle also ensures your safety and that of your loved ones. Make your every journey a safe, pleasant and one filled with cherishable memories.

Compromising the safety of your vehicle also means compromising on the safety of your loved ones and other road users. A healthy vehicle is a safe vehicle. Therefore, get your vehicle inspected to ensure it is healthy and roadworthy. Vehicle inspection enables you to detect potential defects that your vehicle possesses. Early detection followed by appropriate rectification and maintenance can enhance the roadworthiness of your vehicle.

# Voluntary Vehicle Inspection (VVI)

## WHAT ?

### WHAT IS VOLUNTARY VEHICLE INSPECTION?

Much like our health, our vehicles need regular inspection too. With Voluntary Vehicle Inspection, it helps you to know the condition of your vehicle and be able to better understand what are the maintenance requirements in ensuring your vehicle is always roadworthy.

Vehicle inspection complements normal periodic vehicle maintenance. PUSPAKOM's vehicle inspection adopts advanced technology, internationally-recognised methods and calibrated equipment that will help you identify defects in your vehicle.

### WHAT SHOULD I DO UPON RECEIVING OF INSPECTION RESULT?

The inspection results will indicate each check point that PUSPAKOM conducts:

-  **Satisfactory** - You should continue to go for periodic maintenance at the recommended frequency.
-  **Not satisfactory** - Do consult with respective PUSPAKOM's branch managers or contact your nearest authorised service centre for necessary repairs.

## WHEN

### WHEN DO I NEED VOLUNTARY VEHICLE INSPECTION?

Anytime you want to ensure that your vehicle is safe to be used on the road; pre or post periodic maintenance or as long as your vehicle is operating on the road.

## WHERE

### WHERE CAN I GO FOR VOLUNTARY VEHICLE INSPECTION?

All PUSPAKOM inspection centres\* nationwide and mobile inspection sites.

## WHAT DO WE CHECK?

Thorough Inspection

For Only **RM50**

#### Above-Carriage

Examine the upper body of a vehicle for defects and to ensure compliance with the Road Transport Act 1987.

#### Smoke Emission

Measure the gases that are emitted from a vehicle's engine to ensure compliance with the Environment Act 1974. As for diesel engines, PUSPAKOM checks on the density of particles via smoke opacity tests while for petrol vehicle, the Hydrocarbon (HC) and Carbon Monoxide (CO) levels are measured.

#### Tinted Glass

Measure the visible light transmittance rating of windcreens and windows in accordance with regulatory requirements.

#### Brake

Check on a brakes' efficiency and brake imbalance, as well as in parking mode.

#### Under-Carriage

Visual examination of the under-carriage of a vehicle to screen for any potential defects.

#### Vehicle Plate Number

Check the specifications to ensure compliance with the Road Transport Act 1987.

#### Lights

Check the functionality of vehicle lights.

#### Tyres

Check on the condition of tyres to ensure the safety level is met.

#### Suspension

Test the suspension system, including performance of springs, shock absorbers and joints on each axle.

#### Side-Slip

Test the alignment of the tyres and road handling effectiveness during lateral movement.
