PUSPAKOM Marks a New Era in Malaysia's Vehicle Inspection Industry with Game-Changing Technologies and New Management

Shah Alam, 26 November 2024 – After 30 years as the sole concessionaire for vehicle inspections in Malaysia, **PUSPAKOM** is embracing a new era in the automotive industry. With the liberalisation of the market, PUSPAKOM has revealed its plans to integrate cutting-edge technology into vehicle inspection processes, positioning itself as a leader in transforming the industry.

PUSPAKOM's CEO, Mahmood Razak Bahman mentioned that with the integration of artificial intelligence and smart technologies, PUSPAKOM's new inspection processes promise to be more accurate, faster and transparent than ever before, allowing for seamless service experiences for all users.

“Our forward-thinking approach is expected to provide significant value to both consumers and businesses alike by returning productivity to them through time saved. This transition from concessionaire to licensee isn't just about adapting; it's about setting new benchmarks in safety, environmental sustainability, and economic efficiency. We are excited to unveil our upcoming initiatives, which leverage artificial intelligence and next-gen technology to revolutionize vehicle inspections,” added Mahmood.

The company's transition into a licensed competitive environment as a major opportunity to redefine vehicle standards across the country.

PUSPAKOM's Three Pillars and Purpose: Safety, Environment, and Economy

At the event, Mahmood also explained the core of PUSPAKOM's three guiding pillars that reflect the company's values, goals and purpose:

1. **Safety:** By maintaining rigorous inspection standards, PUSPAKOM is committed to ensuring that all vehicles on the road meet the highest safety requirements. This focus reduces risks for road users, safeguarding lives on Malaysia's highways.
2. **Environment:** In support of a cleaner, greener future, PUSPAKOM actively promotes emissions compliance and adopts eco-friendly practices in its operations. The company plays a vital role in reducing air pollution by ensuring that vehicles meet environmental standards.
3. **Economy:** PUSPAKOM strives to enhance operational efficiency, helping businesses reduce downtime and ensure smooth fleet operations. By offering value-driven services, the company aims to contribute to the overall growth of Malaysia's automotive industry.

Although PUSPAKOM is more commonly known for its vehicle inspection services, its existence impacts every Malaysian. Through its three guiding pillars, the company's work touches the lives of all road users, contributes to a cleaner environment, and supports the smooth functioning of Malaysia's economy.

The company also introduced its **new management team**, underscoring its commitment to innovation and excellence. Together with these strategic leadership changes, PUSPAKOM is set to enhance its vehicle inspection services, ensuring they remain at the forefront of the automotive industry.
